REMARKS:

Attached is what should be a self-explanatory package prepared in response to a request from the NSC Staff. Obviously, this memo gets into what are now highly charged political topics. We have tried to keep our presentation as low-keyed and neutral as possible. The memorandum has been coordinated with all concerned Agency offices: OCI, ONE and OER. To keep the profile low, I have prepared the attached transmittal note from me to Mr. Kennedy rather than from you to Dr. Kissinger. This, of course, can be changed if you so desire.
